WHAT IS AN IPR?

Intellectual Property Rights are legal rights, which result from intellectual activity in industrial, scientific, literary & artistic fields. These rights Safeguard creators and other producers of intellectual goods & services by granting them certain time-limited rights to control their use. Protected IP rights like other property can be a matter of trade, which can be owned, sold or bought. These are intangible and non-exhausted consumption.

Theme of the workshop:

The workshop on "Role of Patents & Copy Rights in IPR", is well structured and covers various aspects on Intellectual Property Rights (IPRs) that are concerned with the protection of tangible and intangible property. It provides rewards and recognition to inventor/contributor for their research, designs, discoveries, inventions, etc.

The main aim of workshop is to impart greater awareness about the issue of IPRs, which gained a special importance for all the domains of socio-economic development.

Target Audience

Faculties, Industry personnel, Scientists, Researchers scholars who are into research and want to know more about IPRs, Patents, Commercialization of technologies, Technology transfer procedures, Startup and Entrepreneurship echo system.

Topics to be covered in workshop

- 1.Overview of IP and patent system and Integrating IP tool for R&D
2. Patent Information and Disclosure of Invention for Patentability Due diligence

3. Drafting Patent and its Prosecution in India and Abroad
4. IP Issues in Digital Technology and Copyright in Protection and Registration

WHAT IS AN IPR?

Intellectual Property Rights are legal rights, which result from intellectual activity in industrial, scientific, literary & artistic fields. These rights Safeguard creators and other producers of intellectual goods & services by granting them certain time-limited rights to control their use. Protected IP rights like other property can be a matter of trade, which can be owned, sold or bought. These are intangible and non exhausted consumption.

Theme of the workshop:

The workshop on "Role of Trade Mark & Industrial Design in IPR", is well structured and covers various aspects on Intellectual Property Rights (IPRs) that are concerned with the protection of tangible and intangible property. It provides rewards and recognition to inventor/contributor for their research, designs, discoveries, inventions etc.

The main aim of workshop is to impart greater awareness about the issue of IPRs, which gained a special importance for all the domains of socio-economic development.

Target Audience

Faculties, Industry personnel, Scientists, Research scholars who are into research and want to know more about IPRs, Patents, Commercialization of technologies, Technology transfer procedures, Startup and Entrepreneurship echo system.

Topics to be covered in workshop

1. Overview of IP and Trade mark system and Integrating IP tool for R&D
2. Patent Information and Disclosure of Invention for Patentability Due diligence
3. Drafting Trade and its Prosecution in India and Abroad
4. IP Issues in Digital Technology and Copyright in Protection and Registration
5. IP Issues in Technology Transfer, Industry Academic Collaboration

Promoting Start-ups and Entrepreneurship Initiative and Ecosystem

WHAT IS RESEARCH METHODOLOGY?

Target Audience

Research methodology is the specific procedures or techniques used to identify, select, process, and analyze information about a topic. In a research paper, the methodology section allows the reader to critically evaluate a study's overall validity and reliability.

Types of research methods include the following: Basic research: A basic research definition is data collected to enhance knowledge. ... Applied research: Applied research focuses on analyzing and solving real-life problems. This type refers to the study that helps solve practical problems using scientific methods.

In the present scenario, where rapid advancements are taking place in every field of science and technology, a thorough understanding of research methodology has become essential to teachers and research scholars to pursue further innovations in their respective fields of specialization. Thus, it is strongly believed that, research and development having become an essential component, not only in academic institutions but in industries as well, a Workshop research methodology would be valuable.

Target Audience

Faculties, Industry personnel, Scientists, Research scholars who are into research and want to know more about IPRs, Patents, Commercialization of technologies, Technology transfer procedures, Startup and Entrepreneurship echo system.

Topics to be covered in workshop

1.Awareness of thrust areas, fertile for identifying a research problem, that will lead to further productive outcomes, further stages of research

2.Literature review, concerned data collection, mathematical propositions, simulation studies,

3.Use of relevant software tools, adoption of appropriate algorithms

4.Experimentation or statistical analysis and other appropriate illustrative components

5.Presenting the overall methodology and conclusions convincingly

6.Report writing, elaborating the overall sequence adopted and the conclusions

2. Significance of Report Writing

Theme of the workshop:

In the present scenario, where rapid advancements are taking place in every field of science and technology, a thorough understanding of research methodology has become essential to teachers and research scholars to pursue further innovations in their respective fields of specialization.

The Report Writing is an key component in Research, the evaluation can be done on this only. In this context, we are arranged a work shop on this topic, mainly aimed on the researchers. The contents which are to be explained by the resource personal are very much useful to those who have been completing their research. We are hoping that this workshop may be benefited well for the stakeholders.

About PBR VITS:

PBR Visvodaya Institute of Technology and Science (PBR VITS), sponsored by VISVODAYA Society, Kavali founded by Dr.Dodla Ramachandra Reddy in 1998. The institute is located in 26 acre land adjacent to railway station, Kavali, SPSR Nellore Dt, A.P.

The institution is approved by AICTE and accredited by NAAC with A Grade. The institution offers B.Tech courses in Mechanical Engg, Electrical & Electronics Engg., Electronics & Communication Engg., Computer Science &Engg. The institution also offers M.Tech courses in Machine Design, Power Electronics, VLSI, VLSI-Design, DSCE, Computer Science and Engg., Computer Science, MBA and MCA.

The Library has about 40,000 volumes, more than 100 National and International journals, e-journals and NPTEL learning material and video courses. Digital library access to students round the clock.

The institute has well maintained separate hostels with modern amenities for both boys and girls, with 1000 capacity each. The institute has good sports facilities. The institute has been providing campus recruitment for the students in companies of high repute such as TCS, Tech Mahindra, KPIT Cummins, 8 UGC R&D Projects are ongoing.

WHAT IS RESEARCH METHODOLOGY?

Research methodology is the specific procedures or techniques used to identify, select, process, and analyze information about a topic.

Types of research methods include the following:

Basic research: A basic research definition is data collected to enhance knowledge. Applied research: Applied research focuses on analyzing and solving real-life problems. This type refers to the study that helps solve practical problems using scientific methods.

The institute is approved by AICTE and accredited by NAAC with A Grade. The institution offers B.Tech courses in Mechanical Engg, Electrical & Electronics Engg., Electronics & Communication Engg., Computer Science &Engg. Target Audience

Faculties, Industry personnel, Scientists, Research scholars who are into research and want to know more about IPRs, Patents, Commercialization of technologies, Technology transfer procedures, Startup and Entrepreneurship echo system.

Topics to be covered in workshop

- 1.Identifying a research problem, Analysis of Variance (ANOVA)
2. What is ANOVA?The Basic Principle of ANOVA

- 3.ANOVA Technique,
4. Setting up Analysis of Variance Table

- 5.Short-cut Method for One-way ANOVA
- 6.Coding Method, Two-way ANOVA, Analysis of Co-variance (ANOCOVA), Assumptions in ANOCOVA

In this workshop we are concentrated on finding the variance and co variance between the collected information from the experiment. In order to achieve the qualitative result, there is a need of finding variance and co variance between the information. This helps the researchers to produce the qualitative result. We hope that this workshop may be helpful for the participants and definitely the essence may help a lot.

Report of Workshop on Analysis of Variance and Co Variance

Workshop on RM:Analysis of Variance and Co Variance for Faculty members conducted
On 27-01-2018& 28-01-2018

Resource Person: Dr. Ch.V. Parameswara Rao

Venue:PBR VITS

Date & Time: 28.1.2018, 03.45 PM

The workshop started with welcome speech by Dr. D.Srujan Chandra Reddy, Professor of CSE, and Convener Dr. V. V. Sunil Kumar, narrated the objectives of the workshop. Totally 26 members are participated in the program.

The Resource Person explains about the importance of Research Methodologies which are useful while preparing the Report of thesis for Academics as well as for the people of IT Industry. He, Subsequently explain about the identifying a research problem, and its process, that will lead to developing a qualitative report and also he has explained about the stages of Research, Literature review, concerned data collection and mathematical propositions.

Further He explains about the use of relevance percentage by comparing the existing reports with the proposed Report by using software tools, by taking with the help all methods of comparison, the variance and co variance can be achieved. And also he explains about the methodology of plagiarism check of the entire document.

At final he explained about the methods which are to be applied to achieve a quality Report. The discussion session is at the end of the program by the Resource person and the HOD. It is appeared as very good session for the participants.
